Job Description: Machine Operator, Technology Center, and Manual Machines

JOB SUMMARY

Competency with operation and general maintenance for such machines as Amada, Salvagnini, Bridgeport CNC, and other automated technology as needed.

Flexible working in the following work centers: manual machines, assembly line, subassembly work centers, and packaging.

ESSENTIAL FUNCTIONS

- Select items via the Amada and Salvagnini system programs as appropriate.
- Working with Engineering or the OEM vendor(s), adjust programs appropriate.
- Prior to running the first part, verify that the program is up to the latest drawing revision and notify the lead or supervisor if any discrepancies are found.
- Load raw materials into the laser machine using a forklift.
- Ensure the item's integrity by comparing it to a drawing(s).
- Notify the immediate supervisor or quality control technician if the product does not appear to meet specified standards.
- Unload processed parts and dispose of metal scrap as per company scrap guidelines.
- May be asked to work in various work centers as the need arises.
- Works from assembly instructions, parts lists, wire lists, diagrams, verbal instructions, and notes to assemble, wire, and install a wide variety of components
- Utilizes a wide range of tools including but not limited to drills, wrenches, screwdrivers, and rivet guns.
- Know how to read and follow assembly work instructions including drawings and schematics.
- Assist with maintaining a safe, clean, and orderly factory.
- Other duties as required

EDUCATION AND GENERAL REQUIREMENTS

- Minimum of 3 years manufacturing experience
- Minimum of 2 years experience operating Amada and Salvagnini machines.
- Minimum of 1 year of experience working with machines such as press breaks, shears, and punch press-type machines.
- Assembly line experience
- Strong attention to detail.
- Excellent manual dexterity
- High School Diploma or GED required.

Pay Range: \$25-\$30/hr. Depending on Experience
